WHITE LAKE COMMUNITY LIBRARY

Serving the community, enhancing lives.

**Masks are required in the library.
Please stay home if you are sick.**

What we are doing to protect patrons and staff at the library:

- Using masks and social distancing measures to reduce risks
- Limiting occupancy to 25% of capacity
- Enhancing cleaning and disinfecting of high-touch items and surfaces
- Putting up sneeze guards
- Quarantining all returned items for 4 days before being checked in
- Providing curbside and grab & go services to limit contact
- Installing "scrubbers" in our ventilation system to kill airborne microbes
- Screening staff for symptoms before they report to work.
- Removing toys and most seating

Other Services:

Wireless printing - connect to our Wi-Fi and print from the parking lot. Pick up curbside or in lobby.

Public Computers - Available for up to one hour per day.

Things you can do to help

- Take advantage of contactless services
- Return items to outside drop-boxes
- Limit your time in the building so others may have a turn
- If possible, have one person visit the library for the whole family.

New Ways to Get Your Items:

Order by phone or online. We'll let you know when your items are ready for pick-up.

Curbside pick-up

Call us when you get to the library and we'll bring your items out. Use the marked space by the windchimes.

Grab & Go Bags

Want to check out a bunch of books for the kids, but no time to order them online? Just grab a bag of staff-chosen picture books.
