Friday 10-2

Saturday by appointment

# WHITE LAKE COMMUNITY LIBRARY

*Serving the community, enhancing lives.*

**Masks are required in the library.  
Please stay home if you are sick.**

## What we are doing to protect patrons and staff at the library:

- Using masks and social distancing measures to reduce risks
- Occupancy limited to 25% of capacity
- Enhanced cleaning and disinfecting of high-touch items and surfaces
- Sneeze guards installed
- All returned items quarantined for 3 days before being checked in
- Curbside and lobby pick-up services to limit contact
- Installing "scrubbers" in our ventilation system to kill airborne microbes (in progress)
- Screening staff for symptoms before they report to work.
- Removing toys and most seating

## Other Services:

**Wireless printing** - connect to our Wi-Fi and print from the parking lot. Pick up curbside or in lobby.

**Public Computers** - Available for up to one hour per day.

## Things you can do to help

- Take advantage of contactless services
- Return items to outside drop-boxes
- Limit your time in the building so others may have a turn
- If possible, have one person visit the library for the whole family.

## New Ways to Get Your Items:

Order by phone or online. We'll let you know when your items are ready for pick-up.

### Curbside pick-up

Call us when you get to the library and we'll bring your items out. Use the marked spaces.

### Lobby pick-up

Enter the lobby and turn left to collect your items near the meeting room door.
